2019-2020

7.2CGPA

Dev Bhoomi Institute Of Technology , Dehradun, Uttarakhand — B.tech CSE

2020-2024

7.6 CGPA

PROJECTS

- **Front-end of website** — HTML, CSS, and JavaScript collaborate to structure, style, and add interactivity, while responsive design ensures adaptability across devices in frontend website development.
- **Shopping website named NAP Fashion Point** —Created a robust e-commerce website using .NET Framework within Microsoft Visual Studio, featuring a secure MySQL backend for data management. The user-friendly design ensures easy shopping.
- **Online Doctor Appointment Portal named DocScheduler** — It is based on HTML, CSS, JS and PHP. Users can book appointments from this portal. New signup users will get email of login credentials and users when booking or canceling appointments will get email updates along with all the details related to appointment. Users can print their booked appointments. All details of patients and doctors are synced in Doctor's, Patient's, and Admin's Portal.

INTERNSHIPS & CERTIFICATIONS

Web Development from internshala —In my Web development internship, I learned HTML, CSS, JavaScript, React, Bootstrap, and database management. I also gained experience in using React with PHP for dynamic web applications. This skill set equips me for both front-end and back-end web development roles

Android App Development from internshala —In my Android app development journey, I've gained expertise in Kotlin, the preferred language for Android. I've also covered fundamental Android concepts through Android kickoffs and learned the power of higher-order functions. With this knowledge, I am well-prepared to design, develop, and optimize Android applications.
